Suggested citation	Björn Haßler, Taskeen Adam, Meaghan Brugha, Kalifa Damani, Zoe Allier-Gagneur, Sara Hennessy, ... Hannah Walker. (2019). Keyword inventory (EdTech Hub research instruments No. 1). Cambridge and London, UK: EdTech Hub. https://doi.org/10.5281/zenodo.3523935

USER GUIDE					
<p>Purpose: This sheet serves as a database of search terms for the systematic literature review in Q1 of the EdTech Hub. Terms have been presented in separate tabs that group terms categorically. These are explained in the table below. Each term is also given an ID number, a batch code, a category and sub-category, as well as a semantic value and unique code. The term is then translated from English into the other searched languages.</p>					
<p>ID number and priority ranking: Priority columns identify whether the term will be included in both automated and manual search (H), solely an automated search (M), or tagged and not searched for (L).</p>					
<p>Categories and sub-categories: The tabs are split into the overall categories of keywords and are expanded on in the table below. Within the separate categories, keywords are further categorised into relevant subcategories as a way to further disaggregate the literature base, following the completion of the review.</p>					
<p>Semantic value and unique codes: Each term is given both a semantic value and a unique code. Often this will be the same as the English translation, but some terms will have multiple variations, abbreviations, etc. and will therefore have the same semantic value.</p>					
<p>Translations: These search terms were consistently translated (at times manually and at times automatically) into the 5 UN languages other than English: French, Russian, Chinese, Spanish, Arabic. Search terms were also translated into Portuguese.</p>					
Category	Short code	Description	Batch	Sub-categories	Additional information
Countries / areas	GC	These terms are names of the countries and areas that fit within the research criteria. For full dataset of countries, including formula for inclusion see the separate country list sheet: https://docs.edtechhub.org/lib/3BG5X7VG	H & M	area	
				country	
Regions	GR	These terms are names of continents and regions that fit within the research criteria, and includes synonyms and abbreviations.	H & M	region	Note that not all countries in the regions included as key terms are relevant - publications will have to be screened further.
Development-related	GD	These are terms that are broadly synonymous with LMIC / developing countries	H & M	developing context	
				fragile and conflict context	
Technology	TT	These terms are generalist technology terms, and are not specific to education technology.	H & M	accessibility and inclusion	
				communication and social media	
				device	
				electronic resource	
				general ICT	
model of delivery					

				operating system	
				software	
Edtech	TE	These terms are specialist technology terms that directly relate to education technology.	H & M	device	
				electronic resource	
				general edtech	
				model of delivery	
				software	
Population	P1	This sheet includes terms relating to education levels.	H & M	early childhood education	
				government	
				primary and secondary education	
				teacher and school staff education	
Population needing additional specifiers	P2	This sheet includes terms related to the educational context - educational level and type - that will need to be run against specific population specifiers. See target specifiers in Row 'I'.	H & M	accessibility and inclusion	
				primary and secondary education	
				education in emergencies	
				informal education	
				government	
				subject	
				teacher and school staff education	
Organisations and initiatives	O	These terms include relevant tech and edtech initiatives, learning platforms and organisations, which will be used for tagging only and will not be searched for. This sheet has been populated through different sources centred around numbers of users, innovation and scalability.	L	initiative	
				learning platform	
				organisation	
Focus	F	These terms are the focus words of publications that will be used for tagging only, and not searched.	L	accessibility and inclusion	
				educational finance	
				learner attitudes and behaviours	
				management and delivery context	
				model of delivery	
				outcomes and impact	
Research methods	R	These are terms that relate to research designs and methods, which will be used for tagging and not searched for.	L	research design	
				research method
